

## Report

Inspection of racing premises for the European Deaf Basketball Championship in Konya / Turkey (10 to 12 June 2011)

- Check basketball courts in the survey along with the technical factor in Keren, visited 4 pitches. We chose 2 courts, but so far we have not approved the concession by the federation. It is suitable for the European Championship has the specifications of FIBA. This indicates a high level league deaf.

The lower court found the center of town, and our evaluation is good for indoors and not enough outdoors needed improvements - repaired. (in summer will have a warm climate and good ventilation is insufficient)

2 pitch is close beside the stadium over 150 meters in the same sports.

The floor of the basketball is great, and has renovated just recently.

- 3 basketball court, located outside the town, about 20 minutes by car, and cool climate there, and sports facilities are virtually all new and offers all the services in use around 6 dressing rooms, 3 offices, conference room doping control, office and meeting room technique.

-4 Stadium, University, near the former course, and near a large hotel.

Finally, inspecting the land, the hotel is near the last 2 Hall did not have complete information about prices and availability, but enough for all groups there, if agreed by the Organizing Committee of the hotel. The city center has 2-3 big hotels serving all groups and the prices are very reasonable and the service is quite nice.

After the inspection, the 15.00, we had the lot, as I informed the countries in the results. The date of the league switched twice, and was finished by 29 June to 7 July and a proposal for the federation and the committee.
